Weather.gov/Raleigh
Serving Central NC

...Wintry Weather possible near the Virginia border tonight...

- *Rain will mix with, or briefly change to snow and sleet, when precipitation rates are heaviest tonight. This may result in a light accumulation of snow and sleet across the northern NC Piedmont, from the Triad to Roxboro to Henderson to Warrenton to Roanoke Rapids. Higher amounts are expected from the NC Mountains to Central VA.*
- *Temperatures initially around 40 degrees when the precipitation begins to reach the ground this evening will fall to between 32 and 35 degrees overnight, coldest (at freezing) when precipitation rates are highest.*

...A Winter Weather Advisory may be issued for the far northern NC Piedmont later today...
